

\$25 Be Rewarded™ Colorectal Cancer Screening

Preventive screening for colorectal cancer with the right test at the right time can find abnormal cells so they can be treated before they turn into cancer (Centers for Disease Control and Prevention: www.cdc.gov/cancer/colorectal/).

Early detection is key

Members are eligible to get a \$25 gift card for completing colorectal cancer screening through a fecal occult blood test (FOBT), flexible sigmoidoscopy, colonoscopy, CT colonography, and/or a FIT-DNA test. Colorectal cancer screening tests can find precancerous polyps, so that they can be removed before they turn into cancer and can also find colorectal cancer early.

If you are 45 years of age or older, talk to your health care provider about getting screened and which screening is best for you. Note that if you are under 45 and have certain risk factors, your provider may recommend a colorectal screening before age 45.
