Welcome to South Country Health Alliance

We are pleased to welcome you as a member of South Country Health Alliance's Minnesota Senior Care Plus Program (referred to as "plan" or "the plan").

South Country Health Alliance (referred to as "we," "us," or "our") is part of the Minnesota Senior Care Plus (MSC+) program. We coordinate and cover your medical services. You will get most of your health services through the plan's network of providers. When you need health care or have questions about your health services, you can call us. We will help you decide what to do next and which qualified health care provider to use.

You will be contacted by South Country Health Alliance, to complete a health assessment with a care coordinator. The assessment will help us connect you to health care services or other services available to you as a member. Based on your answers, we may contact you for additional information. If you have questions about this assessment, please call Member Services or your care coordinator.

This Member Handbook is our contract with you. It is an important legal document.

This Member Handbook includes:

- Contact information
- Information on how to get the care you need
- Your rights and responsibilities as a member of the plan
- Information about cost sharing
- A listing of covered and non-covered health care services
- When to call your county worker
- Using the plan coverage with other insurance or other sources of payment
- Information on what to do if you have a grievance (complaint) or want to appeal a plan action, as defined in Section 13
- Definitions

The counties in the plan service area are as follows: Brown, Dodge, Goodhue, Kanabec, Sibley, Steele, Wabasha, and Waseca.

Please tell us how we're doing. You can call, email, or write to us at any time. (Section 1 of this Member Handbook tells how to contact us.) Your comments are always welcome, whether they are positive or negative. From time to time, we do surveys that ask our members to tell about their experiences with us. If you are contacted, we hope you will participate in a member satisfaction survey. Your answers to the survey questions will help us know what we are doing well and where we need to improve.

Section 2. Important Information on Getting the Care You Need

Each time you get health services, check to be sure that the provider is a plan network provider. In most cases, you need to use plan network providers to get your services. Members have access to a Provider Directory that lists plan network providers. The Provider Directory can tell you information about providers such as name, address, phone number, professional qualifications, specialty, and languages spoken by the provider. Call Member Services if you would like information about board certification, medical school attendance, residency program, and board certification status. You may ask for a print copy of the Provider Directory at any time. To verify current information, you can call the provider, call Member Services at the phone number in Section 1, or visit our website listed in Section 1.

When you are a member or become a member of South Country you chose or were assigned to a primary care clinic (PCC). Your primary care clinic (PCC) can provide most of the health care services you need and will help coordinate your care. You may change your primary care clinic (PCC). Call Member

Services at the phone number in Section 1 if you want to change your PCC. You can use any primary care clinic that's listed in our Provider Directory or our online provider search at www.mnscha.org.

You do not need a referral to use a plan network specialist. However, your primary care clinic can provide most of the health care services you need and will help coordinate your care.

Contact your primary care clinic for information about the clinic's hours, prior authorizations, and to make an appointment. If you cannot keep your appointment, call your clinic right away.

You may change your primary care provider or clinic. To find out how to do this, call Member Services at the phone number in Section 1.

Transition of Care

If you are a newly enrolled member who is currently receiving care from a provider who is not a plan network provider, we will help you transition to a network provider.

If a drug you are currently taking is not covered under your new plan, you may be able to receive up to a 90-day temporary supply. For more information, call Member Services.

Utilization Management

South Country wants you to get the right amount of quality care. We want to make sure that the health care services provided are medically necessary, right for your condition and are provided in the best care facility. We also need to make sure that the care you get is a covered benefit. The process to do this is called utilization management (UM). We follow policies and steps to make decisions about approving medical services. We do not reward providers or staff for denying coverage. We do not give incentives for UM decisions. We do not reward anyone for saying no to needed care.

Prior Authorizations

Our approval is needed for some services to be covered. This is called prior authorization. The approval must be obtained before you get the services or before we pay for them. Many of these services are noted in Section 7. Work with your qualified health care provider to get a prior authorization when required. In urgent situations, we will make a decision within 72 hours after we received the request from your doctor. For more information, call Member Services at the phone number in Section 1.

In most cases, you need to use plan network providers to get your services. If you need a covered service that you cannot get from a plan network provider, you must get a prior authorization from us to use an out-of-network provider. Exceptions to this rule are:

- Open access services: family planning, diagnosis of infertility, testing and treatment of sexually transmitted diseases (STDs), and testing for acquired immune deficiency syndrome (AIDS) or other human immunodeficiency virus (HIV) related conditions. You can use any qualified health care provider, clinic, pharmacy, or family planning agency, even if it is not in our network, to get these services.
- Emergency and post-stabilization services

For more information, call Member Services at the phone number listed in Section 1.

If we are unable to find you a qualified plan network provider, we must give you a standing prior authorization for you to use a qualified specialist for any of the following conditions:

- A chronic (on-going) condition
- A life-threatening mental or physical illness

- A pregnancy that is beyond the first three months (first trimester)
- A degenerative disease or disability
- Any other condition or disease that is serious or complex enough to require treatment by a specialist

If you do not get a prior authorization from us when needed, the bill may not be paid. For more information, call Member Services at the phone number in Section 1.

If a provider you choose is no longer in our plan network, you must choose another plan network provider. You may be able to continue to use services from a provider who is no longer a part of our plan network for up to 120 days for the following reasons:

- An acute condition
- A life-threatening mental or physical illness
- A pregnancy that is beyond the first three months (first trimester)
- A physical or mental disability defined as an inability to engage in one or more major life activities. This applies to a disability that has lasted or is expected to last at least one year, or is likely to result in death.
- A disabling or chronic condition that is in an acute phase

If your qualified health care provider certifies that you have an expected lifetime of 180 days or less, you may be able to continue to use services for the rest of your life from a provider who is no longer part of our network.

For more information, call Member Services at the phone number in Section 1.

At South Country Health Alliance, we have staff who can help you figure out the best way to use health care services. If you have questions about things like where to get services, getting authorization for services, or restrictions on prescription drugs, we can help. Call us at 1-866-567-7242, hours are 8 a.m. to 5 p.m., Monday – Friday. This call is free. If you need language assistance to talk about these issues, South Country Health Alliance can give you information in your language through an interpreter. For sign language services, call 711 or 1-800-627-3529. For other language assistance, call 1-866-567-7242. These calls are free.

Covered and not covered services

Enrollment in the plan does not guarantee that certain items are covered. Some prescription drugs or medical equipment may not be covered. This is true even if they were covered before.

Some services and supplies are not covered. All health services must be medically necessary for them to be covered services. Read this Member Handbook carefully. It lists many services and supplies that are not covered. Refer to Sections 7 and 8.

Some services are not covered under the plan, but may be covered through another source. Refer to Section 9 for more information. If you are not sure whether a service is covered, call our Member Services at the phone number in Section 1.

We may cover additional or substitute services under some conditions.

Requests to cover new medical procedures, devices, or drugs are reviewed by our utilization management team. This group includes doctors and other health care experts. They use national guidelines and medical and scientific evidence to decide whether South Country should approve new equipment, procedures, or drugs.

Payments to providers

We cannot pay you back for most medical bills that you pay. State and federal laws prevent us from paying you directly. If you paid for a service that you think we should have covered, call Member Services. If you received a medical bill that should have been covered, call Member Services at the phone numbers in Section 1.

You may get health services or supplies not covered by the plan if you agree to pay for them. Providers must have you sign a form acknowledging that you will be responsible for the bill. Providers must have a signed form before providing services or supplies that are not covered by the plan.

Cultural awareness

We understand that your beliefs, culture, and values play a role in your health.

We want to help you maintain good health and good relationships with your qualified health care provider. We want to ensure you get care in a culturally sensitive way.

Interpreter services

We will provide interpreter services to help you access services. This includes spoken language interpreters and American Sign Language (ASL) interpreters. Face-to-face spoken language interpreter services are only covered if the interpreter is listed in the Minnesota Department of Health's Spoken Language Health Care Interpreter Roster. Call Member Services at the phone number in Section 1 to find out which interpreters you can use.

Home and Community Based Services

If you need certain services to help you live in the community, refer to Home and Community Based Services in Section 7 for information on Elderly Waiver services.

Other health insurance

If you have other health or dental insurance, tell us **before** you get care. We will let you know if you should use the plan network providers, or the health care providers used by your other insurance. We will coordinate with your other insurance plan. If your other health or dental insurance changes, tell your county worker.

If you have Medicare, you need to get most of your prescription drugs through the Medicare Prescription Drug Program (Medicare Part D). You must be enrolled in a Medicare prescription drug plan to get these services. The plan does not pay for prescriptions that are covered under the Medicare Prescription Drug Program.

Private information

We, and the health care providers who take care of you, have the right to get information about your health care. When you enrolled in the Minnesota Health Care Program, you gave your consent for us to do this. We will keep this information private according to law.

Restricted Recipient Program

The Restricted Recipient Program (RRP) is for members who have misused health services. This includes getting health services that members did not need, using them in a way that costs more than they should, or in a way that may be dangerous to a member's health. South Country Health Alliance will notify members if they are placed in the Restricted Recipient Program.

If you are in the Restricted Recipient Program, you must get health services from one designated primary care provider, one clinic, one hospital used by the primary care provider, and one pharmacy. South Country Health Alliance may designate other health services providers. You may also be assigned to a home health agency. You will not be allowed to use the personal care assistance choice or flexible use options, or consumer directed services.

You will be restricted to these designated health care providers for at least 24 months of eligibility for Minnesota Health Care Programs (MHCP). All referrals to specialists must be from your primary care provider and received by the South Country Health Alliance Restricted Recipient Program. Restricted recipients may not pay out-of-pocket to use a non-designated provider who is the same provider type as one of their designated providers.

Placement in the program will stay with you if you change health plans. Placement in the program will also stay with you if you change to MHCP fee-for-service. You will not lose eligibility for MHCP because of placement in the program.

At the end of the 24 months, your use of health care services will be reviewed. If you still misused health services, you will be placed in the program for an additional 36 months of eligibility. You have the right to appeal placement in the Restricted Recipient Program. You must file an appeal within 60 days from the date on the notice from us. You must appeal within 30 days to prevent the restriction from being implemented during your appeal. A member may request a State Appeal (Fair Hearing with the state) after receiving our decision that we have decided to enforce the restriction. Refer to Section 13.

Cancellation

Your coverage with us will be canceled if you are not eligible for Medical Assistance (Medicaid) or if you enroll in a different health plan.

If you are no longer eligible for Medical Assistance (Medicaid) and you do not have Medicare, you may be eligible to purchase health coverage through MNsure. For information about MNsure: call 855-3MNSURE or 855-366-7873 TTY, use your preferred relay services; or visit www.MNsure.org. This call is free.

- Receive a clear explanation of covered nursing home and home care services.

You can ask to have this assessment in your home, apartment, or facility where you live. Your MSC+ care coordinator will meet with you and your family to talk about your care needs within 20 days if you call to ask for a visit.

Your MSC+ care coordinator will give you information about community services, help you find services to stay in your home or community, and help you find services to move out of a nursing home or other facility.

You have the right to have friends or family present at the visit. You can designate a representative to help you make decisions. You can decide what your needs are and where you want to live. You can ask for services to best meet your needs. You can make the final decisions about your plan for services and help. You can choose who you want to provide the services and supports from those providers available from our plan's network.

After the visit, your MSC+ care coordinator will send you a letter that recommends services that best meet your needs. You will be sent a copy of the service or care plan you helped put together. Your MSC+ care coordinator will help you file an appeal if you disagree with suggested services or were informed you may not qualify for these services.

Your county case manager will continue to authorize these services and coordinate with your MSC+ care coordinator.

If you need transition planning and coordination services to help you move to the community, you may be eligible to get Moving Home Minnesota (MHM) services. MHM services are separate from EW services, but you must be eligible for EW.

You must elect hospice benefits to receive hospice services.

If you are eligible for both Medicare and Medical Assistance, and elect hospice, you must elect Medicare hospice care in addition to Medical Assistance hospice care. Federal guidelines prohibit you from choosing hospice care through one program and not the other when you are eligible for both.

If you are interested in using hospice services, call Member Services at the phone number in Section 1.

- Drugs excluded from coverage by federal or state law
- Experimental drugs, investigational drugs, or drugs not approved or authorized by the Food and Drug Administration (FDA)
- Medical cannabis

Notes:

The list of covered drugs (formulary) includes the prescription drugs covered by South Country Health Alliance. The drugs on the list are selected by the plan with the help of a team of doctors and pharmacists. The list has to be similar to the list covered by Fee-for-Service Medical Assistance (Medicaid). The list also must include drugs listed in the Department of Human Services' Preferred Drug List (PDL).

In addition to the prescription drugs covered by South Country Health Alliance, some over-the-counter drugs are covered under your Medical Assistance (Medicaid) benefits. You can search for prescription drugs using our online search tool at www.mnscha.org. A list of covered drugs (formulary) is also posted on the website. You can also call Member Services and ask for a written copy of our list of covered drugs (formulary).

If a drug you are currently taking is not covered under your new plan, you may be able to receive up to a 90-day temporary supply. For more information, call Member Services.

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization (PA):** South Country Health Alliance requires you or your health care provider to get prior authorization for certain drugs. This means that you will need to get approval from South Country Health Alliance before you fill your prescriptions. If you don't get approval, South Country Health Alliance may not cover the drug.
- **Quantity Limits (QL):** For certain drugs, South Country Health Alliance limits the amount of the drug that South Country Health Alliance will cover.
- **Preferred/Non-Preferred (P/NP):** For some groups of drugs, South Country Health Alliance requires you to try the preferred drugs before paying for the non-preferred drugs. In order to receive a non-preferred drug, your doctor or health care provider will have to get prior authorization.
- **Age Requirements:** In some cases, there are age requirements for you to try certain drugs. A prior authorization is needed depending on your age and the specific drug prescribed.

- **Brand-name Drugs:** Brand-name version of the drug will be covered by South Country Health Alliance only when:
 1. Your prescriber informs South Country Health Alliance in writing that the brand name version of the drug is medically necessary; OR
 2. South Country Health Alliance prefers the dispensing of the brand-name version over the generic version of the drug; OR
 3. Minnesota Law requires the dispensing of the brand-name version of the drug

You can find out if your drug requires prior authorization, has quantity limits, has Preferred/Non-Preferred status, or has an age requirement by contacting Member Services or visiting our website at www.mnscha.org. A drug restriction or limit can be removed if your doctor submits a statement or documentation supporting the request. You can also get more information about the restrictions applied to specific covered drugs by contacting Member Services or visiting our website at www.mnscha.org.

If South Country Health Alliance changes prior authorization requirements, quantity limits, and/or other restrictions on a drug you are currently taking, South Country Health Alliance will notify you and your prescriber of the change at least 10 days before the change becomes effective.

We will cover a non-formulary drug if your qualified health care provider shows us that: 1) the drug that is normally covered has caused a harmful reaction to you; 2) there is a reason to believe the drug that is normally covered would cause a harmful reaction; or 3) the drug prescribed by your qualified health care provider is more effective for you than the drug that is normally covered. The drug must be in a class of drugs that is covered.

We will cover an antipsychotic drug, even if it is not on our drug list, if your provider certifies this is best for you. There is no copay for antipsychotic drugs. In certain cases, we will also cover other drugs used to treat a mental illness or emotional disturbance even if the drug is not on our approved drug list. We will do this for up to one year if your provider certifies the drug is best for you and you have been treated with the drug for 90 days before: 1) we removed the drug from our drug list; or 2) you enrolled in the plan.

Most drugs and certain supplies are available up to 34-day supply. Certain drugs you take on a regular basis for a chronic or long-term condition are available up to a 90-day supply and are identified on South Country Health Alliance List of Covered Drugs as **EDS** (Extended day supply (90-days) allowed).

If South Country Health Alliance does not cover your drug or has restrictions or limits on your drug that you don't think will work for you, you can do one of these things:

- You can ask your health care provider if there is another covered drug that will work for you.
- You and/or your health care provider can ask South Country Health Alliance to make an "exception" and cover the drug for you or remove the restrictions or limits. If your exception request is approved, the drug will be covered at the appropriate generic or brand name copay level.

The drug must be on our list of covered drugs (formulary)

If your qualified health care provider prescribes a drug that is not in our formulary, the plan may deny these drugs or provide another drug from the formulary that will work in the same way. For non-formulary prescriptions, prescribers should call the Pharmacy Help Desk at 1-866-935-8874 (toll free) to obtain medical exceptions for the drug.

If pharmacy staff tells you the drug is not covered and asks you to pay, ask them to call your qualified health care provider. We cannot pay you back if you pay for it. There may be another drug that will work that is covered by us under the plan. If the pharmacy won't call your qualified health care provider, you can. You can also call Member Services at the phone number in Section 1 for help.

If the pharmacy staff tells you the pharmacy is out of network, contact Member Services.

Specialty drugs are used by people with complex or chronic diseases. These drugs often require special handling, dispensing, or monitoring by a specially-trained pharmacist. The Specialty Pharmacy is only required if the specialty drug prescribed is used to treat cystic fibrosis, hemophilia, hepatitis C, multiple sclerosis, oncology, or rheumatoid arthritis.

If you are prescribed a drug that is on the South Country Health Alliance Specialty Drug List, your prescriber will need to send the prescription of that specialty drug to South Country Health Alliance's Specialty Pharmacy.

- No-fault car insurance
- Workers’ compensation
- Medicare

When you become a member of the plan, you agree to:

If your other insurance changes, call your county worker.

Section 12. Subrogation or Other Claim

You may have other sources of payment for your medical care. They might be from another person, group, insurance company or other organization. Federal and state laws provide that Medical Assistance benefits pay only if no other source of payment exists. If you have a claim against another source for injuries, we will make a separate claim for medical care we covered for you. The laws require you to help us do this. The claim may be recovered from any source that may be responsible for payment of the medical care we covered for you. The amount of the claim will not be more than federal and state laws allow.

Section 13. Grievance, Appeal and State Appeal (Fair Hearing with the state) Process

This section tells you about the grievance and appeal system including notices, grievances (complaints), health plan appeals, and State Appeals (Fair Hearings with the state). It tells you how and when to use

the grievance and appeal system if you are not satisfied with your health care or service or disagree with a decision we made. It tells you about your rights when using the grievance and appeal system.

Please call Member Services at the phone number in Section 1 if you have questions or want help filing a grievance or appeal.

Grievance and appeal system terms to know

A grievance is when you are not satisfied with the services you have received and may include any of the following:

- quality of care or services provided
- failure to respect your rights
- rudeness of a provider or health plan employee
- delay in appropriate treatment or referral
- not acting within required time frames for grievances and appeals

A denial, termination or reduction (DTR) (notice of action) is a form or letter we send you to tell you about a decision we made on a request for service, payment of a claim, or any other request. The notice will tell you how to file an appeal with the health plan or request a State Appeal (Fair Hearing with the state) if you disagree with our decision.

A health plan appeal is your request for us to review a decision we made. You may ask for an appeal if you disagree with our decision in any of the following **actions** (decisions):

- denial or limited authorization of the type or level of service requested by your provider
- reduction, suspension, or stopping of a service that was previously approved
- denial of all or part of payment for a service
- not providing services (including transportation) in a reasonable amount of time
- denial of a member's request to get services out of network for members living in a rural area with only one health plan
- not providing a response to your grievance or appeal in the required timelines
- denial of your request to dispute your financial liability including copayments and other cost sharing

Your provider may appeal on your behalf with your written consent. Your treating provider may appeal a prior authorization decision without your consent.

A State Appeal (Fair Hearing with the state) is your request for the state to review a decision we made. You must appeal to South Country Health Alliance before asking for a State Appeal. If we take more than 30 days to decide your appeal and you have not requested an extension or we did not add an extension, you do not need to wait for our decision to ask for a State Appeal. You may appeal any of these actions (decisions):

- denial or limited authorization of the type or level of service
- reduction, suspension, or stopping of a service that was previously approved
- denial of all or part of a payment for a service
- not providing services in a reasonable amount of time
- our failure to act within required timelines for prior authorizations and appeals
- financial liability including copayments or other cost sharing
- any other action

Important timelines for appeals

You must follow the timelines for filing health plan appeals and State Appeals (Fair Hearing with the state). If you go over the time allowed, we may not review your appeal and the state may not accept your request for an appeal.

You must appeal to us **within 60 days** from the date of the DTR (notice of action). We can give you more time if you have a good reason for missing the deadline. You must file an appeal with us **before** you request a State Appeal. If we take more than 30 days to decide your appeal and you have not requested an extension or we did not add an extension, you can request a State Appeal without waiting for us.

You must request a State Appeal **within 120 days** of our appeal decision.

If we are stopping or reducing a service, you can keep getting the service if you file a health plan appeal **within 10 days** from the date on the notice, or before the service is stopped or reduced, whichever is later. **You must ask to keep getting the service when you file an appeal.** The service can continue until the appeal is decided. If you lose the appeal, you may be billed for these services, but only if state policy allows it.

If you lose the appeal, you may keep getting the service during a State Appeal if you request a State Appeal within 10 days from the date of the decision on your plan appeal.

For the Restricted Recipient Program, a member who receives a notice of restriction may file an appeal with us. You must file an appeal **within 60 days** from the date on the notice. You must appeal within 30 days to prevent the restriction from being implemented during your appeal. You may request a State Appeal after receiving our decision.

We may take up to 14 extra days if we need more information and it is in your best interest or if you or your provider requests extra time. We will tell you why we are taking the extra time.

You or your representative may present your information in person, by telephone, or in writing.

If you appeal, we will send you or your representative the case file upon request, including medical records and any other documents and records considered by us during the appeal process.

If you do not agree with the human service judge's decision, you may ask the state to reconsider their decision. Send a written request for reconsideration to the Minnesota Department of Human Services Appeals Office within 30 days from the date of the decision.
